(the date of inspection) to the satisfaction of the State Water Rights Board of a right to the use of the water of
Coyote River in Santa Clara County
tributary to San Francisco Bay

for the purpose of irrigation, domestic, minor industrial and incidental recreational uses under Permit 5061 of the State Water Rights Board and that said right to the use of said water has been perfected in accordance with the laws of California, the Rules and Regulations of the State Water Rights Board and the terms of the said permit; that the priority of the right herein confirmed dates from December 9, 1931, and that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to the amount actually beneficially used for said purposes and shall not exceed twenty-four thousand five hundred sixty (24,560) acre-feet per annum to be collected from about October 1 of each year to about July 1 of the succeeding year.

The maximum withdrawal in any one year has been 19,880 acre-feet.

The point of diversion of such water is located:

North fifty-four degrees thirty minutes west (N54° 30'W) one thousand seven hundred thirty (1730) feet from SE corner of Section 29, T9S, R4E, MDB&M, being within SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of said Section 29.

The storage and diversion facilities shall be so operated under this license as to cause as nearly as practicable the same annual percolation between Madrone and Coyote as would have occurred in a state of nature without the existence of said facilities, and without increase in the amount occurring in the lower portion of the cone.
